What is iChannel Lite -

iChannel Lite is a stand alone transcription program. Either using a shared directory on the network, or the user's own PC, dictation is stored for later access. Lite is the perfect solution for smaller law firms and medical offices where a powerful yet low-cost transcription package is needed. Combined with the VS Recorder, you are guaranteed a complete and versatile solution.

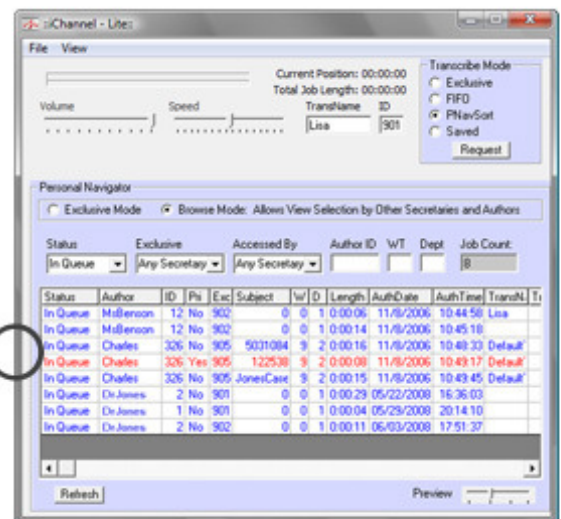

iChannel Lite has a simple and stream-lined interface to keep it a **user-friendly experience**. All of your transcription commands and functions are readily available, as is the basic job data. Try a demo today and see why so many enjoy iChannel Lite!

View available dictation. The dictation list may be filtered using various search criteria, allowing you to find what you want quickly. Each job has several columns of data, such as: author, priority status, length, time it was dictated, subject or patient number, and many more. The dictation list may also be printed for your convenience. All the features and data you need are just a click away.
